Over strength surcharge and additional over strength surcharge

9. In this Section,

(a) "Additional over strength surcharge" has the same meaning as in the Wastewater Services Bylaw;

(b) "Additional over strength concentration limit" means the concentration limit, in mg/L, of a substance set out in column B of schedule "C" of the Wastewater Services Bylaw;

(c) "Additional over strength surcharge mass" means the mass, in kg, of a substance, to which the additional over strength surcharge specified in this section is applied, which mass is determined by applying *additional over strength surcharge mass = ((measured substance concentration — additional over strength*

(d) "Substance" means a substance identified in Schedule "C" of the Wastewater Services Bylaw

(e) "Over strength concentration limit" means the concentration limit, in mg/L, of a substance set out in

(f) "Over strength surcharge" has the same meaning as in the Wastewater Services Bylaw;

(g) "Over strength surcharge mass" means the mass, in kg, of a substance, to which the over strength surcharge specified in this section is applied, which mass is determined by applying the following formula:

Over strength surcharge mass = ((Measured substance concentration — Over strength concentration limit) x water volume) x 1,000,000 (to convert mg to kg)

(h) "Measured substance concentration" means the concentration, in mg/L, of a substance found in Wastewater discharged, by the user, into the Wastewater System; and

(i) "Water volume" means the volume of treated water delivered to, or consumed by, the user, during the preceding year, determined in accordance with the Wastewater Services Bylaw.
